## THE MULTIMODAL CITY: HERE, THERE, EVERYWHERE

November 15-17, 2022

Global mayors and policymakers, leading technologists, public transport operators and venture capitalists, start-ups and established players — the entire landscape of emerging mobility is again present for the most important edition of CoMotion LA ever.

Three days of immersive and interactive talks, pitches, demos, & workshops offer a path forward for cities and mobility systems as we enter a more impactful phase of the Mobility Revolution.

### THEMES

#### • REIMAGINING INFRASTRUCTURE

Address the challenges of integrating new technologies and travel modes - from electric scooters and BRT to autonomous vehicles and flying taxis - into the built environment and digital infrastructure of the existing urban landscape.

#### • DESIGNING SEAMLESS JOURNEYS

In the face of growing trip demand from increased deliveries and mega events like the Olympics and the FIFA World Cup, explore the innovations that improve the trip experience by utilizing data and technology to manage congestion, payments, and create more efficient connections.

#### • CONNECTING COMMUNITIES

Delve into strategies to provide faster and more equitable transportation options connecting people and destinations within cities and regions. Touch on topics including Universal Basic Mobility, on-demand transit, and regional transportation by land, air, and sea.

#### • POWERING SUSTAINABLE MOBILITY

Examine ways to incorporate and scale zero-emission technologies in transportation to achieve the net-zero city. Develop strategic partnerships that will effectively utilize the massive investments being made in renewable energies.
